TAGLINE

BUILT LIKE A MONUMENT. MADE TO SCALE.

Coliseum is a Los Angeles used vehicle dealership built by operators, designed to scale from a single Van Nuys lot to a national network. The brand carries the weight of a monument and the discipline of a system.

ATTRIBUTES

Confident • Modern • Bold • Alive • Considered • LA-rooted

VOICE

Operator-led. Transparent. Accessible. No-bullshit. Earned, not announced.

CATEGORY

Modern automotive — Rivian, Polestar, Lucid, GMC. Not luxury fashion. Not editorial.

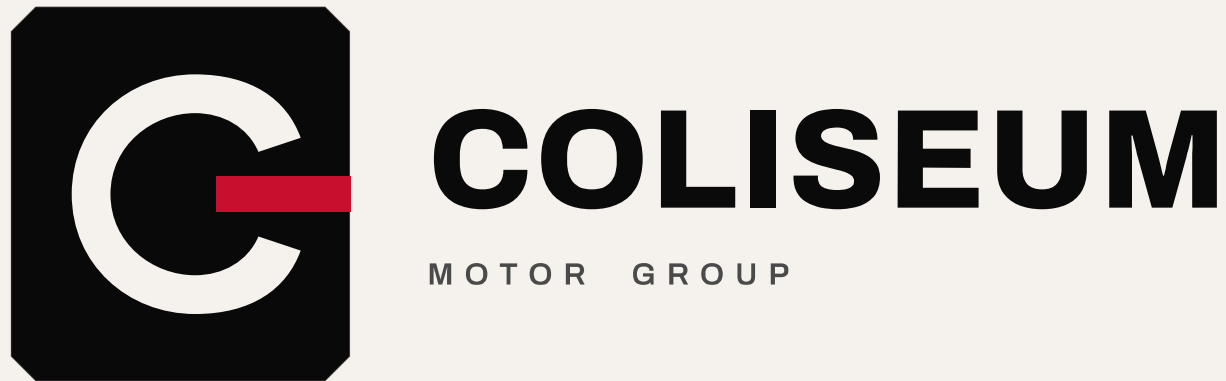

HORIZON

Year 1 Van Nuys. Year 3–5 multi-location California. Year 5+ national.

LOCKUP A

THE PRIMARY.

Horizontal lockup. Cut-corner badge left, stacked wordmark right. Default for every application unless format demands otherwise.

FIVE LOCKUPS · ONE BRAND

PICK BY FORMAT.

A · HORIZONTAL

PRIMARY

Use everywhere by default — letterhead, lot signage, vehicle decals, all formats wider than 4:1.

B · STACKED

SQUARES

Social tiles, plate frames, square ads, embroidery patches.

C · COMPACT

NAVBAR

Web nav, footers, email signatures, dense layouts.

D · WORDMARK

NO BADGE

When the badge appears elsewhere on the page, or partner co-brands.

E · BADGE

MARK ONLY

Vehicle decals, hats, favicons, app icons, social avatars.

FOUR PARTS · ONE MARK

HOW IT'S BUILT.

01 · CHAMFER

14° cut on all four corners. Modern silhouette, not heraldic.

02 · GROUND

Carbon black field. Hairline steel border for definition on dark surfaces.

03 · THE C

Heavy geometric C in bone. Stroke weight matches the wordmark — 18% of cap height.

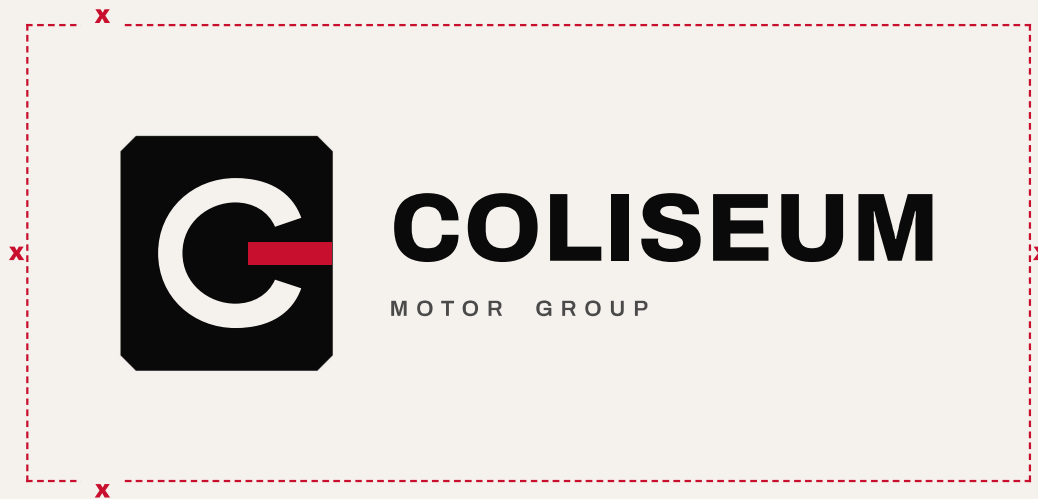

04 · GRILLE SLAT

Crimson bar slicing the C's opening. Reads as arch, chassis, horizon, grille.

PROTECT THE MARK

CLEAR SPACE = X.

X is equal to the height of the badge's crimson slat. No type, image, or graphic element may enter the X boundary around any lockup.

**X**

= height of the badge's crimson slat. Approximately 9% of badge height.

DON'T GO TOO SMALL

FLOORS, BY MEDIUM.

Below these thresholds the badge simplifies — chamfer drops, only the C and slat remain. The system handles the swap automatically below 32px.

PRINT

Business cards, stationery, brochures.

SCREEN

Web, mobile, social avatars, favicons.

EMBROIDERY

Polos, hats, jackets. Below 2in, switch to badge-only.

FOUR COLORS · LOCKED

RED DOES THE WORK.

Crimson is the brand color. It is used boldly — as a confident block, a full wordmark, or a 14-px slat. Never a hairline accent. Never thinner than a neighboring stroke.

Support color. Secondary type, hairlines, dividers, captions.

Background. Pages, signage fields. Never pure white.

RULES OF USE

DON'T BREAK THE BADGE.

DO · 01

Use the badge on carbon, bone, or crimson backgrounds.

DO · 02

Single-color KO on dark fields when print constraints require it.

DO · 03

COLISEUM MOTOR GROUP

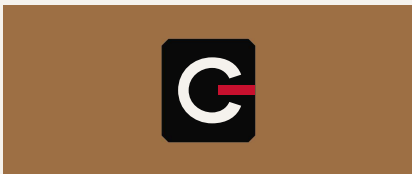

Use the compact lockup in dense layouts and navigation bars.

DO · 04

Respect clear space — 1X around all lockups, every time.

DON'T · 01

Don't place the badge on off-brand colors. Use carbon, bone, or crimson.

DON'T · 02

Don't recolor any part of the badge. The slat is always crimson.

DON'T · 03

Don't stretch or distort the badge. Scale proportionally only.

DON'T · 04

Don't rotate, add shadows, gradients, bevels, or 3D effects.

ONE WORDMARK · MANY LOTS

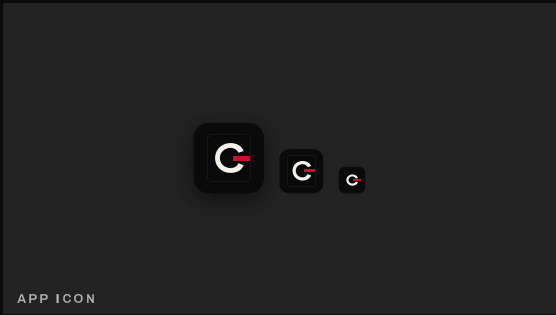

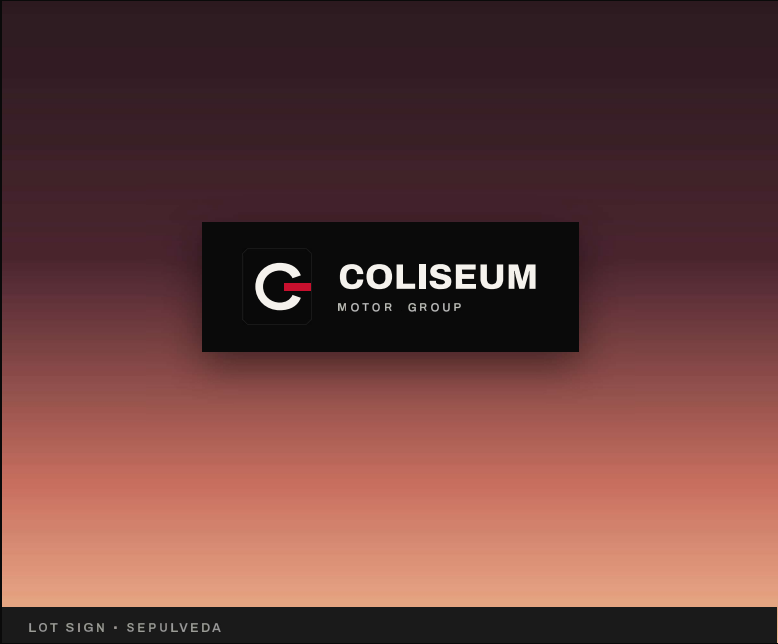

FROM VAN NUYS TO 50 LOTS.

Badge sets the brand. Wordmark sets the parent. City slots beneath in tracked Archivo at crimson. The system is identical from a 4-letter city to "San Francisco."
